1. Introduzione

Congratulazioni per l'acquisto del telecomando universale Philips SBC RU254. Dopo aver messo a punto la configurazione del telecomando potrete utilizzarlo per controllare fino a 4 apparecchi:

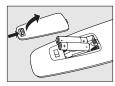

TV, DVD, videoregistratore e decoder via cavo o satellitare.

Nel capitolo 'Installazione del telecomando' troverete le informazioni necessarie per preparare il telecomando all'uso.

2. Installazione del telecomando

Inserimento delle batterie

- 1 Premete sul coperchio e fatelo scorrere nella direzione della freccia.
- Inserite due batterie R03, UM4 od AAA nel vano batterie, come mostrato in figura.
- Richiudete il coperchio (scatta in posizione con un clic).

Collaudo del telecomando

Il telecomando è stato programmato per funzionare con la maggioranza degli apparecchi Philips. Poiché l'RU254 potrebbe utilizzare segnali differenti per ciascuna marca e modello, è opportuno verificare se l'apparecchio risponde ai comandi inviati dall'RU254.

L'esempio che segue (TV) descrive la procedura per il collaudo. Potete ripetere questi passaggi per gli altri apparecchi (DVD, videoregistratori, ecc.) che intendete controllare con l'RU254.

Procedura di esempio relativa ad un televisore:

- Accendete il televisore direttamente o tramite il suo telecomando originale. Sintonizzate il canale 1.
- Premete il tasto TV dell' RU254 per selezionare TV.

- 3 Controllate se funzionano tutti i tasti. Per una panoramica sui tasti e le relative funzioni, consultate '3. Tasti e funzioni'.
- Se il TV risponde correttamente a tutti i comandi abbinati ai tasti, l'RU254 è pronto per l'uso.
- Se l'apparecchio non risponde del tutto od ignora alcuni comandi, passate alle istruzioni descritte in 'Configurazione del telecomando'.

Configurazione del telecomando

Questa procedura va svolta solo se l'apparecchio non risponde ai comandi inviati dall'RU254. Se ciò accade significa che l'RU254 non riconosce la marca e/o il modello dell'apparecchio ed è quindi necessario programmare il telecomando in base alle specifiche dell'apparecchio.

L'esempio che segue (TV) descrive la procedura di configurazione. Potete ripetere questi passaggi per gli altri apparecchi (DVD, videoregistratori, ecc.) che intendete controllare con l'RU254.

Procedura di esempio relativa ad un televisore:

- Accendete il televisore direttamente o tramite il suo telecomando originale. Sintonizzate il canale 1.
- Individuate la marca del vostro TV nella lista dei codici inclusa alla fine di questa guida. Per ciascuna marca sono elencati uno o più codici a quattro cifre. Annotate il primo codice.

Prestate attenzione! Vi sono tabelle separate per le varie categorie di apparecchi: TV, video, DVD, ecc. Prelevate i codici dalla tabella corretta.

- 3 Premete il tasto TV dell' RU254 per selezionare TV. (Vedi 'Collaudo del telecomando'.)
- Mantenete premuti simultaneamente i tasti '1' e '3' per tre secondi, finché la spia verde rimane accesa.

® ♥ ⊗

① ② ③

@ O

PD @ **⑥** ⑨

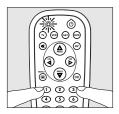

- A questo punto inserite il codice annotato al punto 2, mediante i tasti numerici.
- Ora la spia verde lampeggia due volte. Se la spia lampeggia una volta per un prolungato periodo di tempo, il codice non è stato inserito correttamente, oppure si tratta di un codice errato. Ripetete la procedura a partire dal
- Puntate l'RU254 in direzione del TV e verificate se l'apparecchio risponde correttamente ai comandi inviati.
- Se il TV risponde a tutti i comandi abbinati ai tasti, l'RU254 è pronto per l'uso. Non scordate di annotare il codice.
- Se l'apparecchio non risponde del tutto od ignora alcuni comandi, ripetete la procedura a partire dal punto 2 inserendo il secondo codice elencato nella lista.

Configurazione automatica del telecomando

Se nessuno dei codici abbinati alla marca del vostro prodotto è corretto, è possibile utilizzare la funzione di ricerca automatica del codice corretto del telecomando.

Procedura di esempio relativa ad un televisore:

- Assicuratevi che il TV sia acceso e selezionate un canale mediante il suo telecomando originale, od i tasti del pannello del televisore (ad esempio il canale 1). L'RU254 procederà con l'invio del segnale di 'spegnimento TV' di tutti i modelli di televisore presenti nella sua memoria.
- Se l'apparecchio è un lettore DVD od un videoregistratore, inserite un disco od un nastro ed avviate la riproduzione.
- 2 Poi mantenete premuti i tasti 1 e 3 dell'RU254 simultaneamente per tre secondi finché la spia verde rimane accesa.

3 Premete brevemente il tasto Standby dell'RU254.

L'RU254 inizia ad inviare tutti i segnali noti di 'spegnimento TV', uno alla volta.

Ogni volta che viene inviato un codice, la spia verde lampeggia.

- Quando il televisore si spegne (stand-by), premete due volte (entro un secondo) il tasto Standby dell'RU254 per confermare.
- L'RU254 ha quindi trovato un codice adatto al vostro TV.

- Verificate se l'RU254 è in grado di controllare tutte le funzioni del televisore.
- In caso contrario, ripetete la procedura di configurazione automatica. L'RU254 ricercherà quindi un codice che forse risulterà migliore del precedente.
- Quando l'RU254 ha inviato tutti i codici noti, la ricerca si arresta automaticamente e la spia verde termina di lampeggiare.
- La programmazione automatica richiede fino ad 8 minuti per il TV, 4 minuti per il VCR, 5 minuti per SAT e 4 minuti per il DVD

3. Tasti e funzioni

L'illustrazione a pagina 3 fornisce una panoramica di tutti i tasti e le relative funzioni.

- ① **Standby**..... attiva o disattiva la modalità TV,VCR, SAT o DVD.
- 2 Spia si accende in verde all'invio di un segnale IR.
 - lampeggia in verde all'inserimento di un codice e quando il telecomando viene configurato automaticamente.
- TV/VCR/SAT/DVD. seleziona l'apparecchio da controllare: TV,VCR, SAT (satellite/cavo) o DVD.
- (4) (Mute)..... abbassa completamente il volume audio del TV.
- (5) **PROG +** seleziona il canale precedente o successivo.
- (Menu)..... attiva o disattiva il menu.
- (7) **Tasti numerici**..... selezione di retta dei canali e di altre funzioni.
- SHIFT rende disponibili funzioni aggiuntive. Se premuto simultaneamente ad un altro tasto, il secondo tasto attiva la seconda funzione associata.

 Ad esempio:

SHIFT + PROG+:.. 'menu su'

SHIFT + PROG-: . . 'menu giù'

SHIFT + VOL+:... 'menu a destra'

SHIFT + VOL-: 'menu a sinistra'

Provate altre combinazioni del tasto Shift con il vostro apparecchio per verificare le funzioni disponibili. Sono disponibili sono le funzioni presenti nel telecomando originale.

- (9) 🗐 attiva il teletext.
- (10) ◀..... tasto teletext rosso
 - riavvolgimento (VCR/DVD)
 - tasto teletext verde
 - stop (VCR/DVD)
 - registra (VCR/DVD)
 - II. tasto teletext giallo
 - pausa (VCR/DVD)
 - ▶ tasto teletext blu
 - avanti rapido (VCR/DVD)
 - ► tasto teletext bianco - indice (VCR/DVD)
- (ii) disattiva il teletext.
- (12) -/-- seleziona tra numeri di canale ad una e due cifre.
- (13) **OK** conferma la selezione.
- (4) VOL + regola il volume del TV.
- (§ **AV**.....seleziona a rotazione tra gli ingressi esterni dell'apparecchio.

Nota! I tasti VOL – I/VOL + e ■ (Mute) controllano direttamente il volume del televisore, anche se state controllando un apparecchio VCR, DVD o SAT.

Se l'apparecchio non risponde del tutto od ignora alcuni comandi, passate alle istruzioni descritte in 'Configurazione del telecomando'. Può essere necessario inserire un altro codice per l'apparecchio.
